

## **Pre-Primary Curriculum**

The Pre-Primary stage of a child's life is not only the most vulnerable but also the most significant for determining potential for lifelong learning and right development.

Our Pre-school curriculum will enable the children to be better prepared to meet the immediate challenges and even the long term challenges of lifelong learning. It is wholly and comprehensively child-oriented, play based, fun-filled and activity based which is different from tradition-based approach.

Academics best supported with variety of activities, nap hour, etc., along with the motherly approach towards each and every child makes it a home away from home for any child.

### **Pre-Primary Working Hours:**

Monday – Friday : 08:40 A.M. to 04:10 P.M.

Saturday : Field Trip / PTA
